

CLEAR CREEK

BAPTIST BIBLE COLLEGE

Retention Rates

Clear Creek Baptist Bible College serves adults called of God into Christian service. This entails service to many non-traditional aged students, first-generation students, and second-career students. Our most recent statistics show that 72% of the student body receives some form of financial aid, while 69% percent of students enrolled received funding through Pell grants.

With all this in mind, the college seeks to obtain retention rates that are comparable to other institutions the college has identified as peer institutions.

The charts below provide retention data from both IPEDS submissions and ABHE annual reports.
